

City & Guilds 2391-10 Level 3 Certificate in Inspection, Testing & Certification of Electrical Installations

A short course aimed at anyone involved in the inspection and testing of electrical systems and possibly requiring certification to meet NICEIC, ECA, BSI or any of the other competency schemes entry criteria.

City and Guilds Certification is achieved on successful completion of both the practical assessment and written examination.

The course is offered as follows:

A four day course for a student possessing knowledge of the wiring regulations and to the level of City and Guilds 2392-10 which is the knowledge of the fundamentals of inspection, testing and certification or the equivalent real world experience.

To further support this course, we offer a 1 day practical workshop available to candidates who have completed the course and require further 'hands on' practical experience prior to their practical examination. Most students who take this option, elect to complete this the day before their practical assessment.

We strongly recommend City and Guilds 2382 is achieved prior to sitting this course, though this is NOT an entry requirement.

The examination is a 2.5 hour closed book paper. The examination dates and times are set by City & Guilds and are not flexible. This means that the examination will only be available on the date and time set by City and Guilds.

The practical assessment takes approximately 3 hours, this can, if available, be taken on the day following the written examination or at a later date at a time which is mutually convenient to both student and centre.

If you wish to take the practical assessment the same week you are strongly advised to inform us as soon as possible when booking the course.

The course costs include examination entry fees, a buffet lunch and refreshments throughout the day.

Recommended book list:

These are available to purchase at discounted rates from Technique Training.

BS 7671:2008 IEE 17th Edition Wiring Regulations

Inspection and Testing Guidance Note 3

Please note; both the above books can be loaned for the duration of the course.
