

City & Guilds 2382-10 Level 3 Certificate in the Requirements for Electrical Installations - BS 7671:2008 - 17th Edition Wiring Regulations - 5 Day

An extended 5 day course aimed at anyone that needs to demonstrate an understanding of the electrical regulations, but has limited or basic knowledge only of electrical principles and installation practices.

This course is intended to introduce the candidate to a working knowledge of the IEE Wiring Regulations along with a brief overview of the Electricity at Work Regulations covering their statutory duties. Candidates will be guided on the principles of electrical systems and conventional techniques as well as a look at the mathematical formulae used within the book.

We are extremely proud of the success rate of our students who took the 2381 course and can see no reason why this will not continue with the advent of 2382. We look forward to adding you to our list of successful candidates!

The examination is a 2 hour multiple choice, open book PC based examination with instant results

The course costs include examination entry fees, a buffet lunch and refreshments throughout the day.
