

C&G ELECTRICAL TRAINING COURSE

C&G91-1-5

City & Guilds 2391-10 Level 3 Certificate in: Inspection, Testing & Certification of Electrical Installations - 5 Day

This course is aimed at anyone involved in the inspection and testing of electrical systems and possibly requiring certification to meet NICEIC, ECA, BSI or any of the other competency schemes entry criteria.

City and Guilds certification is achieved on successful completion of both the practical assessment and written examination.

The course is offered as follows:

A five day course for a student possessing knowledge of the wiring regulations and with minimal knowledge of inspection and testing, it is recommended City & Guilds 2392-10 or equivalent is achieved prior to course commencement.

To further support this course, we offer a 1 day practical workshop available to candidates who have completed the course and require further 'hands on' practical experience prior to their practical assessment.

We strongly recommend City & Guilds 2382 is achieved prior to sitting this course, though it is not an entry requirement.

The examination is a 2.5 hour, closed book, paper. The examination dates and times are set by City & Guilds and are not flexible. This means that the exam is only available on the date and time set by City and Guilds

The practical assessment takes approximately 3 hours, this can if available be taken on the day following the written examination or at a later date at a time which is mutually convenient to both student and centre.

The course costs include examination entry fees, a buffet lunch and refreshments throughout the day.

Recommended book list:

BS 7671:2008 IEE 17th Edition Wiring Regulations ISBN-13: 978 0 86341 844 0

Inspection and Testing Guidance Note 3 ISBN 978-0-86341-857 -0
